

The Vega has been designed to build lasting family foundations. One side of this house is dedicated to bedrooms and bathrooms allowing for a superb entertaining and gathering space on the other. The open-plan kitchen flows out onto a dining area with the lounge being separated by a in-built bookshelf. The lounge flows out to the outdoor living from all sides and the master bedroom has both a his and a her's walk in robe and an ensuite. You will want to settle into the Vega for life the moment you walk in the door.

Floor Area: 204m²
